PRICING COMPANY

Rotating the frame converts any frame to Vertical or Horizontal

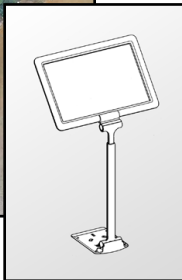

Adjustable Stem

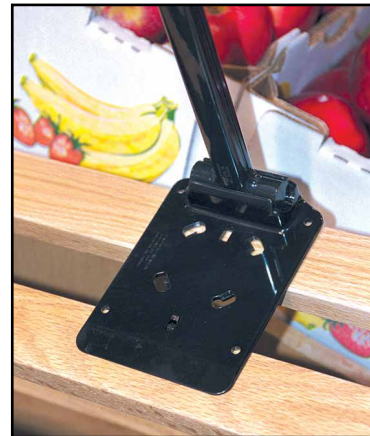

The FrameWorks Sign System continues to be the highest quality product in the industry.

- Our System 2000 features snap-on adaptors, which are easy to use and provide additional versatility.
- A self-centering feature ensures that the new components will always present a finished look.
- The inner card slot has been widened for easier sign changes.
- An integral card retainer also functions as a spacer to enhance the appearance.
- The uniquely attractive frame doubles as either a horizontal or vertical sign holder.

▶ The **Models 2012 12"** and **2008 8"** Stems come pre-assembled and ready to use. The unique, patented design is fully adjustable from 12½" to 21½", or 7¼" to 11" in ½" increments. Simply pull up or push down until you reach the desired height. Fits all 2000 Series Bases.

Model 2035 Angle Adaptor. Use to angle a low counter or in conjunction with the 2012 Stem at the top and/or bottom of the stem. Angles of 10°, 20° and 40° are pre-set with degree indicators engraved on the side of the part.

Model 2036 Euro Base fits all standard slat-type European tables. Use with the 2035 Angle Adaptor at the top for a typical display (See Page 4).

Model 2006 Counter Base is also available with magnets.

Model 2013 Easel Base for Counter or End Cap Displays.

The Patented **Model 2038** Wire Rack Adaptor, when used with 2013 Dump Base, eliminates the common problem of sign holders falling over when a display sells-down. It attaches to the base in either of two positions which enables it to connect to wire shelves running either parallel or perpendicular to the case.

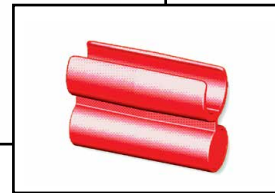

The Wire Rack Adaptor fits all standard racks with wire diameters from 1/8" up to 3/16". Quickly installed or removed, provides the stability to keep the unit upright.

Model 2035 Angle Adaptor adjusts to 3 positions for best viewing; 10°, 20° or 40°.

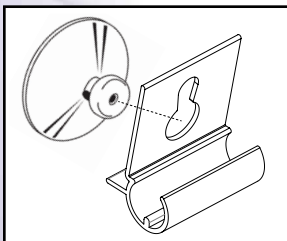

The Angle Adaptor mounts at the top and/or bottom of a stem model for maximum flexibility. Ideal for Floral and Produce Departments.

11" x 14"	FBB114	FPB114	FW114	FSC114

Note: 3 1/2" x 8" and 3 1/2" x 11" frames are special order.

Other Sign Holder Products

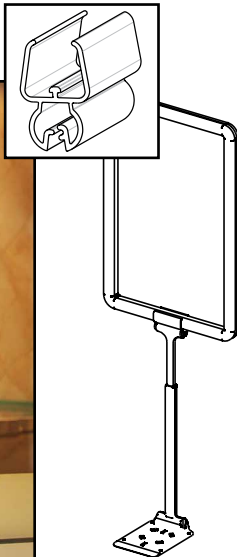

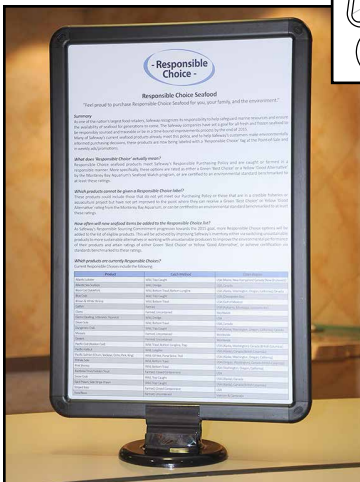

Model VAS8-BK 8" Adjustable Stem accepts View-Lok® Clear Card Holders for paper signs and Just Pic'd™ or custom track systems for Folded Panels. Use with **Model 2006** or **2013** Bases. Black only.

Model VASA-BK converts **Model 2012** 12" stem to accept View-Lok® Holders

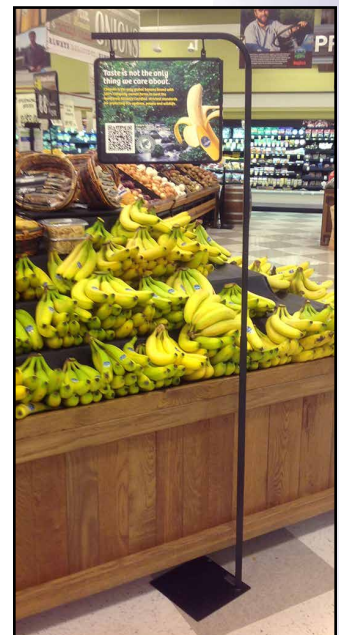

Model 2040

Model 2040 Sectional Frame Adaptor attaches to our FrameWorks Bases or to the top of our **2012** Adjustable Stem. Shown with an 11" x 17" sign. Sectional Frames can be made in any size on a custom basis only and can also be hung or wall mounted.

Model FMSH228-1 is a Bulletin Floor Model Sign Holder for 22" x 28" ads and promotions. Made from 1" steel tubing in a black finish with leveling feet. Shipped knocked down, requires assembly. Other styles are available.

Model FMH114-1-72A for signing tables or pallet displays. Shown with a metal frame to hold 11" x 14" signs. Made from square steel tubing, powder coated black, adjustable from 48" to 72". Other frame sizes are available.

Chalk Board Sign Blanks are available for all standard frame sizes in packages of 20.

Our custom plastic toppers feature a unique design that snaps into 7" x 11" or 8 1/2" x 11" frames.

Easier to use and less expensive than traditional sign inserts that fill the entire frame. Let us quote your next topper project.

FrameWorks Order Information:

Minimum Order \$50.00
All Prices F.O.B. Oakland, CA

FrameWork Sign Holders: Complete with components shown - 20 per case. Broken case prices will apply to all quantities not packed in 20-unit increments. All FrameWorks are priced unassembled. Assembled and welded frames will be set up in a horizontal orientation unless vertical is specified.

Unassembled: All components are shipped in their own cartons of 20 or Master Cases depending upon the quantities being ordered. For convenience, we may elect to pack the smaller items in the box with the frames. Special Kit Packing to your specifications may incur an extra charge.

Standard Assembly: With System 2000 Components, only the part that connects to the frame will be attached. With Original Components, only the Primary Adaptor is inserted between the frame halves. In all cases, Secondary Adaptors, if any are required, are attached by the customer.

Full Assembly: Except for the bases, which pack separately, all components, including screws, are assembled. Models 2036 Euro Base Adaptors and 2038 Wire Rack Adaptors are not attached to the bases.

Welded: FrameWorks may be welded. The Primary Adaptor can never be changed or relocated!

Custom Assembly and Packaging: Available on a quotation basis.
