

Grand Stand™ Sign Holders

Clamp-Swing's Grand Stand Sign Holders are ideal for pricing on tables, counters or wherever you need to place a sign to call attention to an item. The Grand Stands can be ordered with adjustable or non-adjustable stems. The stock color is powder coated black.

Adjustable Stem Models

The stock size for the adjustable model will place the bottom of the sign from 6-1/2" to 12" above the base. The standard base is 4" x 4" with four 1/4" diameter holes for fastening to a fixture. The stem is typically welded near one edge of the base. It comes with a 6" long inner stem with two 1-1/4" high x 1-3/4" wide label holders for use with our plastic sign holders or plastic or metal shelf clips. It is also available with a grip-style sign holder that can be angled forward or backwards about 25 degrees.

Non-Adjustable Models

Non-adjustable models come in 3" and 6" sizes and they use a 2-3/4" diameter base, which also has four 1/4" mounting holes. The stems are welded in the center. The non-adjustable models use the same grip sign holder as the adjustable model mentioned above.

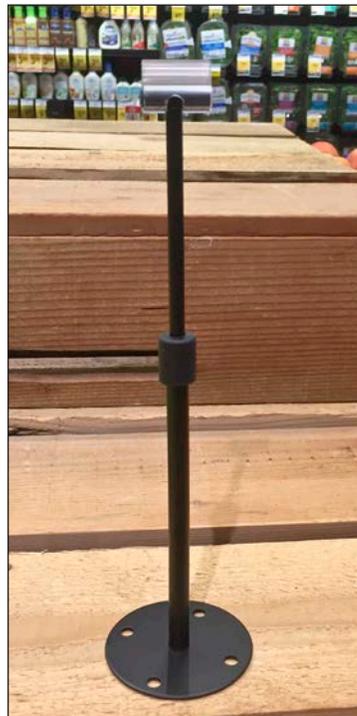

Stock Models

Model	Stem Type	Stem Height	Base	Sign Holder
GS6-4X4LH2	Adjustable	6-1/2 - 12"	4" x 4"	2 Label Holders
GS6-4X4G	Adjustable	6-1/2 - 12"	4" x 4"	Grip
GS3-2.75G	Non-Adjustable	3"	2.75" diameter	Grip
GS6-2.75G	Non-Adjustable	6"	2.75" diameter	Grip

Custom Models

The nature of this product line is that it allows for easy customization. We can provide you with different heights, different sign holder designs and different bases. In addition to the two bases mentioned above, the square base can also be made into a rectangular one in longer or shorter lengths, but maintaining the 4" width, and we can also provide a part that is 4" in diameter. We can change where the stem is welded on the base to meet your needs and custom colors are also an option.
